**CLICK** is a collection of outdoor furniture consisting of Dining chairs, Sunbeds, Rocking chair, Lounge chair, Position chair and a Footrest. CLICK is made in intelligent designed plastic lamellas combined with powder coated metal and wooden parts in sustainable bamboo. The components of the lamella are carefully composed to give the lamellas exactly the right strength and resilience.

**THE CLICK CONCEPT** provides you excellent cushion free comfort, and the flexibility to change colors as you like. The lamellas come in 12 different colors and can be clicked on and off to change the look of the chair simply by changing – or mixing the different lamella colors.

**DESIGN** The CLICK collection is designed by the Danish designer Henrik Pedersen. In the design process there is put a lot of effort in shaping the chairs to make the lamellas follow the structure of the spine. This work has resulted in the best seating.
